# KLUDI OBJEKTA

Looking good in  
every situation

KLUDI OBJEKTA MIX NEW becomes KLUDI OBJEKTA. The range of bathroom mixers reinvents itself with a new design. It picks up on the trend towards soft contours while keeping its clear, architectural structure.

KLUDI OBJEKTA fits perfectly into many different bathroom styles. These designer mixers make it possible to furnish small and large business and residential properties, public buildings and private bathrooms with great style. Together with various ceramic fittings these mixers always look good.

The versatile range includes products with innovative solutions, such as the Kludi Eco s-pointer. The integrated function saves up to 40 % water when washing hands and makes it possible to direct the angle of the water flow to exactly suit the shape of the basin. KLUDI OBJEKTA: economical, ecological and flexible.

# KLUDI OBJEKTA follows the trend towards soft design

KLUDI OBJEKTA has been brought up-to-date – with a straight body and gently curving surfaces on the spout and lever. In this new design KLUDI OBJEKTA picks up on the trend towards soft lines. An evolution with a sense of proportion, which maintains the character of this successful range of mixers. The overall design retains its clear structure, is pleasantly discreet and yet makes its own style impression.

KLUDI OBJEKTA: Architectural, distinctive, contemporary.

mixer DN 15

# Comfortable, economical and safe

In everyday use the KLUDI OBJEKTA proves to be a safe, comfortable choice. The operating elements are designed with ergonomics in mind while the curved surfaces are quick and easy to clean. In addition the ceramic cartridge contains a hot water limiter.

**Kludi s-pointer**  
Thanks to the Kludi s-pointer in the single lever bath- and shower mixer the angle of the water flow can be adjusted at will. The water flows elegantly down the sides of the bath instead of thundering noisily into the tub. This makes it possible to enjoy a virtually silent bath even late at night.

**Kludi Eco s-pointer**  
Ecological benefits: The KLUDI OBJEKTA single lever basin mixers are fitted with the Kludi Eco s-pointer. As well as making it possible to adjust the angle of the water flow the eco-function also helps to save up to 40 % water use - every day and every time you wash your hands!

**NEW: KLUDI OBJEKTA single lever basin mixer XL**  
When installed in larger basins the XL version makes a strong visual impression.
